Why choose Hälsa Plus?

The Hälsa Bed from Permobil is the ideal home care bed. This bed boasts incredible features such as an exceptionally low positioning option and it disassembles easily for transportation and storage.

Permobil also offers the choice of two beautiful colours for the head and foot boards - Nature (Maple) or Wine (Mahogany).

Hälsa Bed has unique qualities that separate it from other electrical beds on the market.

Most home health care beds have Trendelenburg capabilities as an option, but with the Hälsa Bed, the Trendelenburg feature comes standard. Additionally, most beds don't offer the capability of moving both the head and foot sections simultaneously - the Hälsa Bed does

permobil

Easy to disassemble

Large caster option available
