

Invacare Pegasus METRO

Pegasus METRO: Safe, Comfortable, and Built for You

Welcome to the Pegasus METRO, the mobility scooter that expertly blends safety, comfort, and smooth performance into one reliable ride. Whether you're just starting out or have years of experience, the Pegasus METRO is designed to make every journey enjoyable. The Speed Reduction Technology guarantees a gentle ride, especially around corners, ensuring you feel secure and in control.

Designed for Comfort

With your well-being in mind, the Pegasus METRO features an ergonomic design that naturally aligns your head, shoulders, and elbows, creating a relaxed and comfortable driving position. This design significantly reduces bodily strain, making it possible for you to take longer trips without discomfort. The scooter's seat adjusts 360 degrees and can be set for height and distance from the controls, and even reclines, ensuring it fits just right.

Safety and Control at Your Fingertips

Your safety is our priority. The Pegasus METRO comes equipped with leading-edge safety features, including a two-step braking system to avoid unintended movement and customizable controls to suit your driving style. With a capacity to support up to 300 lbs and a maximum speed of 12 km/h, the Pegasus METRO is designed to cater to diverse needs and preferences, providing a dependable and customizable mobility solution.

Discover the freedom and peace of mind the Pegasus METRO brings to every ride.
